Terms and Conditions

Limited Warranty for Commercial Products

What Is Covered: Epson America, Inc. ("Epson") warrants to the first end-user customer that the EPSON Stylus Pro 7000 series ink jet printer covered by this limited warranty statement, if purchased and given normal use in the United States or Canada, will conform to manufacturer's specification and will be free from defects in workmanship and materials for a period of one year from the date of original purchase (proof of purchase required). Epson also warrants that the consumable ink cartridges enclosed with the printer will perform to the manufacturer's specified usage, which usage may expire before the expiration of the limited warranty of the Epson Printer.

What Epson Will Do To Correct Problems: Should your EPSON Stylus Pro 7000 series printer prove defective during the warranty period, please call the toll-free support line identified in this booklet. This line will be answered between 6:00 AM and 8:00 PM Pacific Time, Monday through Friday, and between 7:00 AM and 4:00 PM Pacific Time on Saturday (excluding Epson recognized holidays). Weekend hours are subject to change without notice. When you call, please be prepared to provide your Printer's Serial Number and proof of purchase. An Epson call center technician will work with you to try to resolve the problem, and if your printer needs repair, diagnose the issue and determine what parts may be required. If hardware repair is required, Epson will arrange for the service of your EPSON Stylus Pro 7000 series printer.

On-Site Response: If the printer needs hardware repair and you are within Epson's on-site service territory, an Epson Authorized Servicer will be contacted to make the repair at your facility. Epson will usually dispatch repair parts and a technician to your location for the next business day if determination that repair is required occurs prior to 3:00 PM Pacific Time. If that determination is made after 3:00 PM, or during weekend hours, dispatch will be for the second business day. An adult must be available to accept the parts delivery and be present at all times while a technician is on-site. Epson's shipment of service parts does not imply that replacement is required. For both on-site and depot repair, parts may be new or remanufactured to Epson standards. Repair parts (until installed) and replaced parts are the property of Epson. Repair parts assume the remaining warranty period of the original product.

An abstract, grayscale geometric pattern occupies the left side of the page. It consists of various shapes including triangles, squares, and circles, some of which are nested or overlapping, creating a complex, layered visual effect.

Printer Exchange: Epson may, at its sole discretion, elect to replace a printer that for whatever reason appears to require technical services beyond the capability of field repair. Under these circumstances Epson will replace the printer with the same or comparable printer refurbished to the Epson standard of quality. (The replacement printer will not include promotional materials, accessories, stands, documentation, manuals, software, or cables.) The customer must be able to receive, unpack, and install the replacement printer, and prepare the defective printer for return shipment by following the procedures described in the user manual. The repacked defective printer will be picked up by a carrier designated by Epson. If the defective product is not prepared for return within 7 business days of receipt of the replacement printer, the customer will be invoiced at the prevailing manufacturer's suggested retail price for the replacement printer. The replacement printer assumes the remaining warranty period of the original product.

Epson Depot Repair Response: If your location is outside Epson's on-site service territory, you must ship your printer to Epson for repair. Areas outside the on-site service territory include, for example, U.S. territories and possessions. It is your responsibility to properly prepare the printer for shipping as described in your documentation and securely package it in its original container or equivalent. Epson will repair your printer within 7 business days following receipt and then return it to you via best available method. It is your obligation to re-assemble the repaired printer.
